

Utah Radon Services Installation Advantage

Utah Radon Services Uses Core Drilling To Produce A Clean Install Without Unnecessary Dust

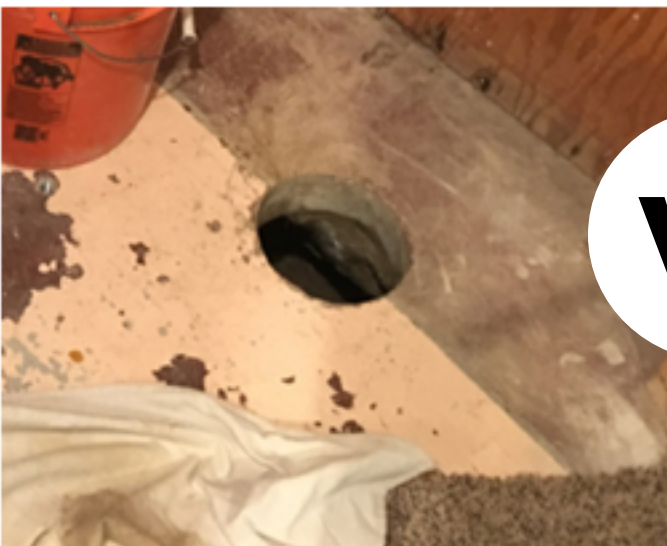

A Typical System Uses Hammer Drilling Which Produces An Unsightly Hole and Much More Dust

VS

Core Hole Seals Permanently

Jagged Hole Won't Seal Permanently

VS

Utah Radon Services Installation Advantage

Utah Radon Services Uses Floor
Bushings For A Clean Finish
Permanent Installation

Typical Radon Systems Use Caulk
Which Is Unsightly And May Need
To Be Recaulked In The Future

VS
